SUMMARY

I'm a Full Stack web developer proficient in ReactJS, NextJS, JavaScript, HTML, CSS, Django and MySQL. I have an extensive project portfolio that highlights my expertise. A significant accomplishment of mine is creating an Attendance Management System (AMS) for my college. Beyond web development, I enjoy tackling DSA problems and typing at an impressive average speed of 120 WPM, with a personal best of 155 WPM. Additionally, I've developed a unique personal portfolio website to showcase my projects and skills.

PROJECTS

Attendance Management System

<https://github.com/anasdevs/> • May 2023 – August 2023

- Developed an advanced attendance management system using React, Django, and MySQL for seamless monitoring and reporting.
- Designed and implemented an intuitive user authentication system, ensuring secure access to attendance data for students and faculty.
- Created a dynamic dashboard with real-time attendance tracking, providing users with instant insights into attendance records and history.
- Contributed to the creation of detailed attendance reports, showcasing attendance trends and patterns for both students and administration.

Shaders.shop

<https://www.shaders.shop/> • June 2022 – August 2023

- Successfully launched "shaders.shop," an innovative e-commerce website powered by WordPress and WooCommerce, offering a seamless shopping experience for customers.
- Integrated essential payment gateways, including Stripe and Razorpay, ensuring secure and convenient transactions for customers during the checkout process.
- Leveraged design skills to produce an extensive collection of eye-catching t-shirt designs using Canva, resulting in a diverse and attractive product range.

File Downloader

<https://github.com/anasdevs/> • August 2023 – August 2023

- I developed a user-friendly file downloader application using vanilla JavaScript. The application empowers users to effortlessly download files of various formats by simply inputting the URL.
- This ensures users can easily access documents, images, audio, and more, all while enjoying a seamless experience.
- Streamlined the user interaction by providing a straightforward interface. Users only need to paste the URL of the desired file, effectively eliminating unnecessary complexities.

SKILLS

HTML, CSS, JavaScript, ReactJS, NextJS, Redux, Django, MySQL, Python, Figma, Canva, Git, Github, DigitalOcean, Google Cloud, Vercel.
